CHEMICAL GEOLOGY
ISOTOPE GEOSCIENCE

Contents Volume 114, 1994

VOL. 114, NO. 1/2

Publisher's Note 1

Research Papers

Origin and coseismic behavior of mineral spring gas at Byakko, Japan, studied by automated gas chromatographic analyses
K. Nagamine 3

Major- and trace-element compositions of Cenozoic basalts in eastern China: Petrogenesis and mantle source
C.-Q. Liu, A. Masuda and G.-H. Xie 19

Distribution of REE and trace elements in size and mineral fractions of high-purity quartz sands
J. Götze and R. Lewis 43

An early Proterozoic leuco-granitic gneiss with the REE tetrad phenomenon
S.-G. Lee, A. Masuda and H.-S. Kim 59

Topography, weather and human activity effects on the behavior of metallic elements in a tropical catchment
J.L. Mogollón and C. Bifano 69

Trace-metal chemistry of the Huanghe (Yellow River), China — Examination of the data from in situ measurements and laboratory approach
J. Zhang, W.W. Huang and J.H. Wang 83

Seawater as the source of minor elements in black shales, phosphorites and other sedimentary rocks
D.Z. Piper 95

Isotopic evidence for the source of sulfur in the Upper Freeport coal bed (west-central Pennsylvania, U.S.A.)
E.C. Spiker, B.S. Pierce, A.L. Bates and R.W. Stanton 115

Discussion

Recent localised sulphate reduction and pyrite formation in a fissured Chalk aquifer — Comments
T. Elliot and P.L. Younger 131

Recent localised sulphate reduction and pyrite formation in a fissured Chalk aquifer Reply Reduction–oxidation reactions in the London Basin aquifer system — how may they be investigated?
R.T. Kimblin and A.C. Johnson 137

Isotope Geoscience Section

Research Papers

A procedure for the isotopic analysis of boron by negative thermal ionization mass spectrometry
N.G. Hemming and G.N. Hanson 147

An assessment of $^{40}Ar/^{39}Ar$ dating for the whole-rock volcanic samples from the Luzon Arc near Taiwan
C.-H. Lo, T.C. Onstott, C.-H. Chen and T. Lee 157

Technical Notes

An improved nickel-tube pyrolysis method for oxygen isotope analysis of organic matter and water
T.W.D. Edwards, W.M. Buhay, R.J. Elgood and H.B. Jiang 179

Irradiative coloration of quartz and feldspars with application to preparing high-purity mineral separates
T.P. Rose, R.E. Criss and G.R. Rossman 185

0009-2541/94/$07.00 © 1994 Elsevier Science B.V. All rights reserved
SSDI 0009-2541

VOL. 114, NO. 3/4

Letter Section

A new Ra–Ba chromatographic separation and its application to Ra mass-spectrometric measurement in volcanic rocks
F. Chabaux, D. Ben Othman and J.L. Birck 191

Research Papers

Mantle metasomatic enrichment versus arc crust contamination in the Philippines: Oxygen isotope study of Batan ultramafic nodules and northern Luzon arc lavas
S. Fourcade, R.C. Maury, M.J. Defant and F. McDermott 199

Bafliaz volcanics, NW Himalaya: origin of a bimodal, tholeiite and alkali basalt suite
M.I. Bhat, P. Le Fort and T. Ahmad 217

The mineralogy and geochemistry of a hydrothermal alteration pipe in the Othris ophiolite, Greece
E. Valsami, J.R. Cann and A. Rassios 235

Isotope Geoscience Section

Research Paper

The carbon isotope composition of organic matter occluded in iron nodules
M.I. Bird, J. Quade, A.R. Chivas, L.K. Fifield, G.L. Allan and M.J. Head 269

Erratum 281

Special Section: "Controls on Carbon Preservation", by C. Lee (Guest-Editor)

Controls on carbon preservation — New perspectives
C. Lee 285

Preservation of elemental and isotopic source identification of sedimentary organic matter
P.A. Meyers 289

Tectonic control of the crustal organic carbon reservoir during the Precambrian
D.J. Des Marais 303

Factors influencing organic carbon preservation in marine sediments
D.E. Canfield 315

Bioturbation and remineralization of sedimentary organic matter: effects of redox oscillation
R.C. Aller 331

Relationships between mineral surfaces and organic carbon concentrations in soils and sediments
L.M. Mayer 347

Early diagenesis and organic matter preservation — a molecular stable carbon isotope perspective
S.A. Macko, M.H. Engel and Y. Qian 365

Contents Volume 114, 1994 381
